

July 25, 2008

Mr. Christian Hilland
Reports Analysis Division
Federal Election Commission
999 E Street NW
Washington, DC 20463

Dear Mr. Hilland:

Romney for President, Inc. (hereinafter "RFP"), FEC ID# C00431171, is in receipt of your Request for Additional Information (RAI) dated July 1, 2008, referencing the June Monthly Report (5/1/08 - 5/31/08). Thank you for your questions and suggestions. RFP takes seriously our compliance and disclosure obligations and has established internal processes and controls to ensure full compliance with all relevant Federal regulations. Our response to your RAI is as follows:

Schedule A-P

Offset to Expenditure

The reported transaction represents RFP's receipt of funds from the sale of surplus office equipment and/or supplies. The price paid to the vendor was at or below fair market value.

Schedule B-P

Cycle to Date Calculation Discrepancies

The Committee will amend its May Monthly report to correct the cycle to date discrepancies.

Contribution Refund

The original contribution was reported on Schedule A of the April Monthly Report (3/1/08 - 3/31/08).

Travel and Subsistent Advances

The committee has reviewed the relevant transactions and believes that all such transactions were properly reported pursuant to 11 CFR 104.9(a) and 11 CFR 104.9 (b) and, therefore, no amendment is necessary.

Void Checks

Under 11 CFR 104.9 and other available FEC guidelines, the Committee can find no indication that "void check" is not a valid purpose when reporting transactions of this nature. With regard to the transactions questioned, the Committee has reported checks that were issued to vendors in a prior period and, because they were determined to be either duplicate or lost payments by the vendor, these checks were voided during the reporting period so that the Committee's reported cash on hand figures agreed with its internal records. There were no corporate in-kind contributions of any kind.

Conclusion
